春(Tony) 1 , 此题出现在7月北京 , 上海 , 广州等城市。其实就是几种媒体的利与弊。 What disadvantages will people meet if they cannot use computers? What should our government do? Computer plays a very important role in peoples work and life. We cannot imagine what our world would be like without computer. With the popularization of computer knowledge, more and more people can use computer. But there are still others who are not familiar with it. From my point of view, I think they will confront a lot of trouble and difficulties. Firstly, most machines and equipment are controlled by computer nowadays, for example, automobile industry, manufacturing, power station and even airplanes, which can improve the efficiency of our work. If a person cannot use computer, he will have difficulty in operating machines. It is hard to imagine that a pilot can fly an airplane without intimate knowledge of computer. Without knowing computer knowledge, people will not fit in with the rhythm of our society. Secondly, people can acquire rich information on computer through Internet, is abundant in valuable information. We can get a lot of information about world events, arts, movies and the latest development of science and technology. If a person cannot use computer, you will be out of fashion and lag far behind the others. Finally, computer plays a very important role in education. For instance, students have to revise

their thesis when they are fulfilling their thesis. Without a computer, the revision work will be very tedious. In addition, students can study some long-distance courses on computer through Internet, which can enlarge their knowledge. Taking into account of the disadvantages people will meet, I think the government should do something to popularize computer knowledge. Firstly, the government and the authorities concerned should popularize computer knowledge in primary schools and secondary schools. Secondly, the society and the communities should organize some training courses to the people who cannot use computer. To sum up, in the rapidly developing society, if people cannot use computer, they will meet many difficulties in their work and life. nbsp ; nbsp ; -----nbsp ; 来源: 【无忧考分社区】 .nbsp ; &nbspnbsp ;
