1) 最高级比较范围用介词in, over, of, among. in, (all) over用于在某一范围内的比较，如：in China, all over the world. of, among用于在同一群体内同类事物的比较，如：among the teachers, of the four dresses. 注意：among...相当于one of ..., 不说among all...。这一点考生应与汉语表达区别开来如：all visible lights, red light has the longest and violet the shortest wavelength. [A] Among [B] Of [C] For [D] To 答案为[B]

2) 比较级形式表示最高级意义时，比较对象的范围应用：any other 单数名词 the other 复数名词 the others anyone/anything else 上述词是用业将比较级结构转变成最高级意义的关键词语，切不可遗漏，尤其是other，否则会造成逻辑混乱的错误。如不能说：John runs faster than anyone.注意与汉语表达的不同。

3) most可以用来修饰形容词或副词，意思相当于very，用法区分单复数，但不能用定冠词the，如：a most interesting book, most expensive restaurants, 要注意与“the 形容词最高级 + of 名词”的结构表示的最高级的区别，如：He spoke in the warmest of voices They have been most kind to me Basketball is the most popular of sports in this country. Chinese is the most difficult of language Chinese is a most difficult language

三。不用比较级和最高级的形容词：

1) 表示颜色的有：white, black 2) 表示形态的有：round, square, oval, circular, triangular (三角形), level 3) 表示性质和特征的有：atomic, economic,

scientific , sonic , golden , silvery , woolen , earthen , silent , full , empty , sure , dead , deaf , blind , lame , rainy 4) 表示状态作表语的有 : afraid , asleep , alive , ashamed , alone , aware , alike 5) 表示时间、空间和方位的有 : daily , weekly , monthly , annual , present , front , back , forward , backward , east , west , south , north , left , right , final 6) 表示极限、主次、等级的有 : maximum , minimum , utmost , main , major , chief minor , superior , inferior , senior , junior , super , favorite 7) 含有绝对概念的有 : absolute , entire , whole , total , perfect , excellent , thorough , complete. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
