private car advantages of owning a private car disadvantages of owning a private car should it be necessary to enlarge the private car market? why or why not? nowadays, enjoying the luxury of owning a private car is popular around us. a recent investigation shows that about 80% people desire to have private car. like everything else, having a car has both favorable and unfavorable aspects. generally, the advantages can be listed as follows. first, having a car of your own means no more traveling to work on crowded buses or subway trains, and you can drop off the children at school on the way. moreover, it also means that you can enjoy the weekends and holidays better, because with a car you can go to places where the regular buses and trains do not go, and so you can find a quiet scenic spot with no crowds. but every coin has two sides (however, there are drawbacks to owning a car). the negative aspects are also apparent (for one thing). to begin with, the roads are becoming more and more crowded because the increase in car ownership in recent years. it makes the journey to work like a nightmare. besides (

for another ) , it is not cheap to run a car, as the prices of gasoline and repairs are constantly rising, not to mention the prices you have to pay for a license (办牌照) and insurance coverage (保险费). most important of all , driving a car means risk life if car accident happens. through the above analysis , i believe that the advantages outweigh the disadvantages ( i have come to the conclusion the advantages of owning a car outweigh the disadvantages) . greater emphasis should be laid on how to regulate the private car driving. it seems to me that that china should increase its output of automobiles and enlarge the private car market. the result would be that cars would become cheaper, while at the same time the extra demand would encourage the auto industry to produce more efficient and family-oriented vehicles. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
