You know she does not seem friendly at fITst, because she is very stem when she speaks and she will not tolerate nonsense, but later you will find she is very kind. For example, many students tried to give her gifts during Teachers Day and she scolded every parent. So they disliked her at first, but when she helped a parent go to the hospital and she even paid the bill, the parents began to see beyond her tough exterior. She is also very demanding and clear when she speaks and her concern is always not your grades but your effort. The effect she had was very powerful. Essentially she taught me that you can be very disciplined and stem and hard working but still be very kind. Before I thought all teachers who were strict were just mean. After her, I learned that hard work is about not compromising on quality. Inbsp; nbsp; nbsp ; nbsp; Pure and simple. She said the only gift she wanted was hard working from the student.
