Use reasons and specific examples to support your answer. Do movies and television affect our behavior? A special concern is whether movies and television make children and society more violent. I believe that movies and television do influence our behavior, both for the better and for the worse. Movies do make people more violent. The more we see violent acts on television, the less sensitive we become to them. Eventually violence doesnt seem wrong .we may even commit violent acts ourselves. This is especially true because we dont always realize that violence has consequences. Actors can be killed and come back for another movie. Sometimes we confuse that with reality. We forget that killing someone is permanent. Movies and television also influence our behavior because they make us less active. Looking at films is a passive activity. If we watch too much, we become unhealthy, both mentally and physically. We stop using our own imagination when we see things acted out for us. Mental laziness ecomes physical laziness. wed rather watch sports on to than play sports ourselves. wed rather visit with the characters on "Seinfeld" or "Friends" than go chat with our own neighbors. Imaginary people have exciting lives. Is it any wonder that some people would rather live a fantasy life than their own? Of course, watching movies and television can also be good for us. It can give us a broader window on

the world. For example, seeing movies can expose us to people of different races and cultures. We can then overcome some prejudices more easily. Recently there have been more handicapped people in films, and this also help reduce prejudice. The best influence on our behavior is that movies and television reduce stress. Watching films, we can escape our own problems for a little while. Also, sometime movies show positive ways to resolve problems we all face. While TV and movies shouldn ' t be a way to hide from life, sometimes they can help us cope. It is true that movies and television can influence our behavior negatively. However, I also believe that they influence our behaviors in positive ways. How they affect you depends on how much you watch, what you watch, and how you respond to what you watch. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
