Other people prefer to travel alone. Which do you prefer? Use specific reasons and examples to support your choice. [托福参看范文之一] Topic: 44Traveling is a very pleasant thing. Some people like to travel with several friends. Other people, however, would prefer to travel alone. Each way has its advantages. As far as I am concerned, traveling with my friends is my choice. Why do some people like to travel just himself or herself? For one thing, they have more freedom. They do not need to discuss the routine with others. What he or she wants to go, just go. For another, they can have more relax. They do not need to keep an eye on how to get along with friends. Although there may be one or more advantages to traveling alone, I insist that traveling with friends far overweigh them. In the first place, you can make the trip easy. Traveling is not a very easy activity. For example, you need to find transportation tools, hotel and restaurant in strange places. Several friends can average these tasks so that such things will not bother every one much and enjoy the journey more. In the second place, you can get help when you need. There will be many unexpected surprising thing during the journey. Such as, get lost, be sick, cannot wake up early for the morning flight. It is very tough for

people to handle these situations by themselves especially when they travel to a strange place. Friends can give you a hand to overcome all these difficulties. As a Chinese slang says, "every one needs the help from others." In addition, you can have more fun. Enjoying the scene spots is wonderful, while traveling on the road is boring. How to spend this boring time? Talking with friends, playing cards will help you out. In conclusion, I prefer to travel with friends rather than travel alone not only because the trip will be easier with friends, but also because more help and fun will be got from friends. [托福参看范文之二] I prefer to travel with a companion. First, you can save plenty of time and money. In the travel, you have lots of things must do except see landscape such as booking hotel, buying tickets, looking for bus stations etc. If you have a companion can do these things with you, you will have more time to see landscape and to rest. Its the most important that you will have a good mood rather than be upset by those small beer. Money is a very big problem. If you like to travel alone, you must afford all. But if you have a companion, you can save money in transport, hotel, even tickets. That may let you travel more days than you plan. Time and money is important to you, but when you have trouble what you want is sincerely help. I like climbing mountain. I have been to the Jiuzhaigou in the Sichuan province. It is very beautiful place, but it locates high altitude. We meet big trouble of breath when we climbed mountain. in the way, my friend and I had a turn on carrying bags and helping each other when we felt tired. when we reached the mountain peak, we embraced. We all knew the one thing that if you have no help from

your friend, you cannot reach the peak. In most of time, you may get fun from your friend. When you want to get a photo, your friend can take a picture for you. When you feel scared, your friend can encourage you. When you are lonely, your friend can joke you. When you get a beautiful place, you can share your happiness, inspiration with your friend. A companion can bring some help, save time and money. Also you can feel human spirit in the same time. Your eyes not only see nice landscape of nature, but the beautiful landscape of human beings. [托福参看范文之三]

Traveling alone is the only way to travel. If you take someone with you, you take your home with you. When you travel alone, you meet new people, have new experiences, and learn more about yourself. When I travel with a friend, I spend all my time with that friend. We eat together and sightsee together. When I travel alone, I spend my time looking for new friends. It is easy to find other people, either other tourists or locals, to eat with or have a coffee with. When you share meals with strangers, they become friends. When I travel with a friend, my routine is predictable. We maintain the same schedule that we do at home. When I travel alone, I adopt the rhythm of the place I visit. I might take a nap in the afternoon and eat dinner at 11 pm. I might go to a disco and dance all night. When I travel with a friend, we know how we will react to things. When I travel alone, each new experience requires a new reaction. If I don't try new things, I won't be able to decide if I like something or not. Shall I ride an ostrich or eat one? I think it is always important to do things on your own. You can find new friends, collect new memories, and adopt

different ways of doing things. Isn't that the point of travel? 100Test
