Topic26：你是否同意在你的社区旁边建设一个新的电影院？

Topic26 It has recently been announced that a new movie theater may be built in your neighborhood. Do you support or oppose this plan? Why? Use specific reasons and details to support your answer. [ 托福参看范文之一 ] Topic: 26 I know from the media that a new movie theater may be built in my neighborhood. Going to see a movie is one of the most common ways of entertainment. With the movie theater nearby, I could go to see a movie more convenient. However there are more reasons to oppose the building of a new heater, especially near our community. If the movie theater is built in our neighborhood, it certainly provides us the conveniece to see a movie. We no longer need to drive downtown to see it, but walk to the movie theater after dinner without any haste. It will save a lot of time on the way to the teater. And we will never worry about finding a parking lot. However, the movie theater nearby will also bring some problems. First, the noise of the people going to the theater will bother other people in the community. The movies usually end very late. People who enjoy the movies will certainly discuss it when stepping out the theater. some people will argue or even cry for the movie. Furthermore, the noise of the cars engines will make the condition worse. The people who live in the community nearby will suffer from the noises of people

and cars. Another disadvantage of building a movie theater nearby lies that it will cause traffic jam during the hours people going home. People who live far away will drive to the theater. These cars together with the cars of the people after work will pose a heavy burden on the traffic system of the town. The traffic jam will not only make many people late for the movie, but also bring us who live nearby bad moods before going home. Considering the advantage and disadvantage factors above, I oppose to build a new movie theater in my neighborhood, because the problems outweigh the benefits. We usually see movies once a month. I cannot afford suffering from the traffic jams and noises in the late evening throughout the month except for the day I amble there to see a movie. [ 托福参看范文之二 ] It has recently been announced that a new movie theatre may be built in my neighborhood. However, as far as I am concerned, I do not support this plan. The argument of my view goes as follows: To begin with, people seldom go out to watch movie nowadays. With the development of science and technology, people have a lot of methods to enjoy themselves. They can watch TV at home, go to watch the soccer game, play basketball and so on. In my hometown, fewer and fewer choose to watch movie in a theater. They prefer to watch movie on TV at home, which is more comfortable. In addition, I think there are enough theatres now. As I know, it is only fifteen minutes walk between the two theaters in my community. As a result, it is obvious unnecessary to build the third one. If we do build another theatre, the average persons per theater will decrease, which makes every theater earns less money. Last but not least, it is,

to some degree, a waste of money. Nowadays, we must use money in quite a number of fields. For instance, there is only one primary school here. It takes some children half an hour to go to school from their home. If we can build another school instead of the theatre, students will spend less time on their way, which is safer because there are many buses and cars on the road. In conclusion, it must be explained that these three reasons sometimes intertwine to form an organic whole and thus become more persuasive than any one of them. Then any thinking person must agree that it is not necessary to build a movie theatre. [ 托福参看范文之三 ] Some people will say that a new movie theater in our neighborhood would be a bad thing. However, I fully support the plan to build one. I feel that a movie theater would bring more opportunities for recreation, reduce teenage delinquency, and lead to several improvements in the town. As it stands, there is little to do in my town. There are no parks here, and there is certainly no nightlife. Additionally, the nearest movie theater is more than thirty minutes away. That is inconvenient for everyone here. Many movies end late at night. Who wants a long drive home at 11:30p.m. or midnight? Building a new movie theater here will reduce juvenile delinquency. Like everyone else, teens here are bored. They need activities to keep them busy and out of trouble. The jobs that the theatre will provide will help teens, too. We need more businesses that are willing and eager to employ young people. Overall, the new theater will bring many improvements to the town. For example, it will help other businesses. That is because the movie theater will attract customers from neighboring towns. Those

neighbors do not have a reason to come to this town now. However, if they are coming here for a movie, they will be more likely to stay here to shop. If we get more visitors, we'll need better roads. While this may be costly, it will also make travel easier for people living here. We will be able to get around faster. Safety will be improved with the new roads, because they will be in better condition than many that we have now. I believe that our town needs a new movie theater. Again, I support it fully. I hope that others in our community will join me to convince residents and local government. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
