Topic87：过去的100年，你认为在你们国家最有贡献的发明是什么？

Topic87 What discovery in the last 100 years has been most beneficial for people in your country? Use specific reasons and examples to support your choice.. [ 托福参看范文 ]

Topic: 87 I think the most important discovery that has been the most beneficial for people in my country is the invention of

Internet. So far as I can tell, the Internet has been beneficial to people around the globe. My view is a commonsense one, based on the fact

that the Web is a vast storehouse of information and opinion, which can be scientific, literary, political, sporting or sexual. Anyone with

access to a computer and a dialup connection can unlock the door and trawl through its offerings. The Internet can be used as a broad

base of knowledge that contributes to the educational system.

Students and teachers benefit from the use of the Internet, as well as administrators and others outside of formal education. Students

benefit because the Internet provides a resource to supplemental information for any subject. Educators benefit because the Internet

provides a vast knowledge base to prepare for topics. People are not only learning from the Internet, they are contributing and sharing

knowledge through networked communities. The Internet is the

advancement of education for all its users. Internet can deliver better customer services to people. The Internet is changing the way we do

business. Using Internet broadcasting, we are able to target the right audience, prepare and present a technical presentation on a popular topic, interact with new customers, and collect hundreds of highly qualified leads. As Internet companies continue to find innovative ways to leverage the capabilities of the Internet for businesses, the more we will learn how to provide optimal solutions for customers. Which in turn, will greatly benefit people. The Internet today is a way to transfer and share information. On the whole, it is a benefit to individuals of all kinds. We do have problems surrounding the Internet that need to be solved, but as with all new technologies there are debates and opinions. Since the Internet technology is spreading, it will soon become as popular as all other forms of communication. If you have not tried it, do so. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
