，这样家里更热闹 (3) 能够学习更多人的思维方式，或者团队精神。因为一两个相近朋友的思维比较一样，而未来我们要和很多不同的人一起工作，和很多朋友在一起对于培养思维和团队精神很有帮助。 [ 托福参看范文 ] Topic: 1111

I think I prefer to have many different friends because we can learn more from having many different types of friends. If we have just a few close friends, then we cannot learn as much as we can if we have many friends. Therefore, I think it is better to have many different friends. First, having many different friends can teach us about life and the world. I think you can learn many things about many different countries if you know people from all over the world. For example, if you have a friend from China and one from Iran, you can learn more about those two countries. If you just have friends from

your country, then you do not learn very much about the world. We can also have many different kinds of experiences if we have many different kinds of friends. For example, some people like sports, others like music, still others like to study. If we have many different friends with many different interests, then we can never feel bored and we can have a happy life. Finally, if we have many different friends, then maybe we can have more help from people when we need it. For example, if we need some kind of help with something, but we don't know too many people, then it might be difficult for us to get help. However, if we know many people, then it will be easy for us to find help when we need it. Therefore, I believe that it is better to have many different friends in our lives. Having many friends can teach us about the world, we can have more fun with different friends, and we can get help more easily if we have many different friends.

Topic: 111 We all need to have friends, and I think the more friends we have the better. Friendship helps us learn how to trust others, what to expect from others, and how to profit from experiences. I want to have a lot of friends around me so I can learn more about myself from different people. I want to have people around me that I trust and that I can depend on. We all need friends, both in times of trouble and in times of happiness. If I only have a few friends, it is impossible that they might not be available if I need them. If I have a lot of friends, it is more likely that they will be able to share my troubles or my good fortune. I want to have people around me that surprise me. If I have just one or two friends, I know what to expect from them. I know how they will react. If I have a lot of

friends around me, I will always be surprised. Each will have a different way of reacting to a situation. Observing this reaction and responding to it will teach me how to deal with strangers whom I might meet. I want to have people around me that can teach me something about life. If I only have a couple of friends, I will know everything about them very quickly. If I have hundreds of friends, think what I will learn. Each day they'll teach me something new and show me a new way of thinking about something. I have a lot to learn in life, so I want as many people as possible to help me. I want a lot of friends to show me how to have a good time. I'll do the same for them. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
