It is the one I prefer for three reasons: I am used to the lecture system. it is an efficient system. I am too shy to talk in class. All my life, I have listened to teachers. They come into the room, open their books, and start to lecture. We students sit quietly at our desks and take notes. We never ask questions because we don't want to seem stupid. At the end of the course, we are given a test. If we can repeat on the test what the teacher said in class, we will get a good grade. The lecture system is an efficient one. The teacher is the one who knows the subject, not the students. It is a waste of time listening to a student's ideas. What good will that do me? Time is short. I want the teacher to give me as much information as he or she can during the class period. Even if we could talk in class, I would never open my mouth. I am much too shy. I

would be afraid the other students would laugh at me and make fun of my ideas. I prefer to listen to the teacher and memorize the teachers ideas. I hope I can always study in a school where they use the lecture system. I think it is better to continue with what one is used to. I also think that there is a lot of information that I must learn in the most efficient manner possible. I wouldnt want to interrupt a teacher with my foolish questions. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
