I've read that from ancient times human beings have produced sounds from "instruments" like rocks or skins stretched over a wooden frame. Music is something most people want and need. I think it's important because it can be a major part of both community and individual experience. Music is a way of sharing a common bond or feeling. When we were children, we learn very simple songs called nursery rhymes. These songs help make us part of our culture by telling us what's acceptable and what's not. We play and sing music in our religious ceremonies because it enhances the worship experience. We play music when we're going to war or celebrating the fact that we've won a war. We have national anthems to share our love and pride for our particular country. We have music we play for our school, and music we play for our athletic

team. In fact, music has become a big part of athletic games. We use it to taunt the other team as well as celebrate when points are scored for our team. Music is also a major part of individual experiences. When we fall in love, music is usually apart of that experience. People talk about having "our song." That means the song that was playing when they met or a song they both liked when they fell in love. When we get married, we play music before and after and sometimes during the ceremony. It expresses how we feel. We play music to calm our nerves or to stimulate ourselves to get on with a task. We also play music for the simple enjoyment of listening to the sounds. Music is special to us because it expresses our connection with our culture, and because it enhances our individual experiences. Nothing else seems to capture our feelings quite so well. Topic:

169 Music plays a very important role in our life. We can almost hear music anywhere. Different music serves different functions in our life. Why is music important to many people? The reasons are presented below. Music is a very important form of art. Like other arts, music is ubiquitous and has become a part of our life. The whole lifetime of most people is accompanied by music. A baby falls in sleep in the music of a lullaby. a young student may learn to play a musical instrument and listen to music from the radio, TV and a Walkman. There is music for birthdays, for weddings, for Christmas, for New Years day. There is music for every single occasion in our life. We are surrounded by various kinds of music since we were born and music has become an integral part of our life. Interesting enough, music often serves as an important part to other art forms,

such as music in dancing, drama and movies. As a matter of fact, many famous music pieces come from dancing and movies, such as the theme from "Love Story." Music is part of the history. The history of music is almost as long as the history of human civilizations. Music from old times has become the great culture heritage to us. One of the examples is classic music of Beethoven and Tchaikovsky. People enjoy their music from generation to generation. Listening to music is one of the most popular forms of entertainment. There are so many kinds of music that can suit tastes of different people. Young people like pop music and Rock-and-Roll and older people may enjoy classical music and opera. Whether we are happy or sad, there will always be music that we can listen to. People can express their feelings and emotions through music. Lovers often play soft love songs to show their love and devotion to each other. For the reasons presented above, we can see how important music is to our life. It is hard to imagine a history without music, and a life without music.
