] Topic: 167 Our school has been given a grant to make necessary improvements to its facilities. We can spend it on new books for the library or on more computers. Our school already has books in its library and it already has computers. Since we have more books than computers, I think that new computers will benefit the students more. Computers can access up-to-date information on the Internet. Right now, the reference books in our library are very outdated. Our encyclopedia set is eight years old. But if every student had access to a computer, we all could have the latest facts and figures on everything. Unfortunately, giving every student a computer means we need a lot of computers. Right now, the ratio of computers to students is one to twelve. This means students only get to work on the computers three or four times a week. But if every student had a computer, we could use it whenever we wanted. "Information on demand" should be our slogan. Students today need lots of

information right away. Life goes by too quickly to wait. It takes forever to identify a book that you think might have the information you need. Then you have to go to the library and look for the book. Usually its not even there. With a computer, information searches are instantaneous. If we all had computers, we could access more information and access it faster by computer. We could have all the information we needed for our schoolwork. We could all improve our grades. For these reasons, I feel that purchasing more computers will benefit us more than buying more books. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
