Topic: 166 Everytime my father encounter something difficult,I feel anxious and ask myself "When will I become an adult?" A children is so little thin and coward,but an adult is very strong and wise.I want to help my parents and make them happy.Some books and movies tell me that many things can make me an adult.They are experiences or ceremonies such as going to college,getting a job,wedding and so on.We may look into every possible events,however,the foremost should be the entrance to college.From the first day on campus,we have to do a lot of things all by ourselves,washing clothes,cleaning doms and buying fruits.A child never worry about these things.We also learn how to protect ourselves and how to get well with the others.We keep alert to judge whether our behaviours are right or wrong and distinguish which is good or bad for us.When we meet difficulties,we can overcome them by our own efforts instead of asking for help from you parents,we

become adults since the moment. When we graduate, we find a job and live on our own earnings. We work hard and do a good job to make our value by give our own contributions to the society. We plan how to use our time and money to make ends meet. We help who are in the hardship. When we get rewards, we become adults since the moment. Then we get married and have children. We teach them how to walk, how to speak and how to become adults. We also make our parents and relatives happy. we become adults since the moment. So life is beautiful. To become an adult means to become more independent and more responsible. Topic: 166

The difference between children and adults are very easy to tell from their physical outlooks: children are small, weak, have a poor judgment, and have to depend on adults. On the contrary, adults are big, strong, and more independent. Every child will grow up to become an adult.

What events make a person an adult? In my personal opinion, there are a lot of events which mark the turning point for a person to become adult. In many countries, when a child becomes eighteen years old, he or she legally becomes an adult. There will be a big celebration and many best wishes from relatives and friends. the young person may also have a great longing for a bright future in his adult life. He may move out from his parents house and live alone. he may start dating and doing activities which only adults can do, such as going to a pub. Graduation from college is another big turning point for a person to become adult. In college the young person may rely fully or partially on his parents for financial support, but after he graduates, he must find a job for himself, and

live on his own. Graduating from college and joining the work force can also make a person an adult. Marriage is also a big event to a person. Once become husband or wife, the young person starts to take care of others, and take responsibility for the family. Once the young person becomes a parent, he or she should also take care of the baby. I believe that getting married and have children is the most important event that turns a person into an adult. Only after one gets married, does he or she take on the responsibility to the family and the society.

Topic: 166 There are so many differences between children and adults, such as adults always make decisions independently, while children often deal with things under the supervision of adults. Although it is a course that a child grows up and become an adult, I believe that many events play a significant role in it. Based on the experience and life style of my own, leaving parents and living alone is the event that turn a child into an adult.
