Topic: 149 Having some free land has always been a deep wish of mine. When I was a child my family and I often went to the country on weekends, because one of Dads brothers owned a piece of land non too far from the city where we lived. I enjoyed myself riding horses, playing with cats and dogs, picking up eggs from hens, looking at rabbits, watching birds, "driving" tractors and so on. Since then, I have been dreaming to have some free land of my own property, in order to do what I most like without annoying any neighbours. First of all I would fill it with trees, flowers and grass, because I love to stay outside and have walks under the trees shadow. Secondly, I would buy some German Sheepdogs. Actually Im very fond of this race of dogs and I wish to grow up some exemplars and win premiums at dog competitions. Dogs are the real passion of my life. I love to stay with dogs and speak to them and teach them some basic things. Finally, in order to stay there always, I would build a small country house, made of stone and wood but

with all comforts and a swimming pool to bathe in when its very hot. Probably its a dream, but dont say its impossible to accomplish. In fact, I would only need to work in some place neither too near, not too far from the country. There I could find some free land and do what Ive just said. So I would realize the childs atmosphere that I can only remember now and that is so distensive when just thinking of it. Topic: 149 What should I do if some day I had some land of myself? I take it as a serious question although if it is just a hypothesis. While, definitely, I will facilitate it to built up a public school! The reason is that education is so important to both this society and individuals. It is my dream to develop a school for the children who have been bereft the opportunity of acceptance education. Firstly, widely well-educated population can benefit the society they are in from enjoying an orderly circumstance. It is a common sense that intellectuals are more conformable than the others. Bandits or brigands are usually composed of those uncivilized people. With their knowledge, people are much more positively to comply with their national laws. Caution are also be taken by those knowledgeable people to stay away from criminal. Secondly, our society needs to be constructed by their civilian with their technique or skills much more than just their nature strength. It is the advantaged technology that makes a nation standing in the first line among the world. Thirdly, individual in this earth should be equal with all rights including being educated. What tragedy it is that so many kids abandoned or are abandoning their study for their poverty. So many films about these poor children always made me in tears! I swear if only I have the

power I will do my best to help them other than just donate those little faint money! If I have some land, I will open a school, definitely!

Topic: 149 If I have received some land to use as I wish, I would use this land to build a library. I like to use the following reasons to explain my choice. The first and most important reason is that library can bring plenty of knowledge to people. I remember the famous words that knowledge is power. Apparently, a library is the ideal place for people to attain knowledge. In a library, we can get all kinds of valuable information that we need, such as knowledge of geography, history, music and politic, and so on. We can imagine that it is so comfortable and enjoyable when we sit in a quiet library and immerse in the world of knowledge that we cherish. Another equally important reason is that people can spend their spare time in a more meaningful way in a library. Now the life pace is faster and faster, so people, especially young people, like to go to see a movie, or a disco party. In comparison with those places, I think that library can provide a quiet and comfortable atmosphere for people who want to reduce the pressure of life. Moving on to wider themes, a library is a good and safe place for children. Parents would rather let their children go to the library frequently than see their child spend lots of time in playing the game or watching television. After all, a good book can provide children with enormous help in their future life. From what has been discussed above, I may safely draw the conclusion that using this land to build the library for people will be my first choice.
