[ 托福参看范文 ] Topic: 144I know there are advantages to living in a modern apartment, but Id prefer to live in a traditional house. My main reason is that I love traditional design. Its graceful and warm and inviting. I think modern design is very empty and sterile and not very inviting. So, because of the way it looks, Id choose a traditional house.I recognize the fact that a modern apartment is going to be in much better shape. Being new probably means all the plumbing works, the roof isnt going to leak, the windows are properly sealed, and the kitchen appliances are in working order. A traditional house cant guarantee any of that. In fact, its likely that things will break down or need replacement, simply because of age.Still, if the appliances are old, so is the wood, and thats a big advantage as far as Im concerned. Very few new buildings have the kind of beautiful woods that were used years ago. Its something that cant be copied.Space is always important to me, too. I need a lot of

room for my home office, my clothes, and to display all the knickknacks I've picked up in my travels. I also like to have interesting space. I don't want all the rooms and windows the same size or a boxy design. A modern apartment usually comes in one size and shape. A traditional house is going to have a variety of spaces where I can put a little table or a window seat. And it will have lots of room, from basement to attic. These are all good reasons for me to prefer living in a traditional house. Some people love modern design, but it's not for me. The space and beauty of a traditional home are more important to me than having everything new and perfect.
