Section B
Directions: There are 2 passages in this section. Each passage is
followed by some questions or unfinished statements. For each of
them there are four choices marked A) B) C) and D). You should
decide on the best choice and mark the corresponding letter on
Answer sheet 2 with a single line through the centre.

Passage
One Questions 57 to 61 are based on the following
passage. Communications technologies are far from equal when it
comes to conveying the truth. The first study to tell lies in phone
conversations as they are in emails. The fact that emails are
automatically recorded—and can come back to haunt(困扰)you.
APPears to be the key to the finding. Jeff Hancock of Cornell
University in Ithaca, New York, asked 30 students to keep a
communications diary for a week. In it they noted the number of
conversations or email exchanges they had lasting more than 10
minutes, and confessed to how many lies they told. Hancock then
worked out the number of lies per conversation for each medium
. He found that lies made up 14 per cent of emails, 21 per cent of
instant messages, 27 per cent of face-to-face interactions and an
astonishing 37 per cent of phone calls. Hancock hopes his research
will help companies work out the best ways for their employees to

communicate. For instance, the phone might be the best medium for sales where employees are encouraged to stretch the truth. But, given his result, work assessment where honesty is a priority, might be best done using email. 注意：此部分试题请在答题卡2上作答
