Googles boom benefits from the frenzy of Internet. Another striking example is Zhang Liangyings overnight sensation. Super Girl Voice Contest, a golden opportunity for her, put the spotlight on her. Others argue that intelligence and diligence outweigh opportunity. There is solely a Google around the planet. The Internet superpower gains from its co-founders advanced technology and keen insight into the global internet market. Zhang Liangying demonstrated her distinguished talent and the very wide vocal range. For this reason, she left an favorable impression with judges and won a host of diehard fans. In my eyes, success is strongly linked with both. The combination of these two factors breeds success. There are enormous opportunities beckoning us,. We must seize them and exert our all-out intelligence and ability. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
