Today, our country 's centuries-old dream of journeying to outer space has finally come true. People from all walks of life, with no exception to me, take a pride in being Chinese and your fellow countrymen. As the rocket soared into the sky, your name joined those figures such as Gagarin in space history. You deserve this honor, for you were subject to unimaginable hardships and challenges before the successful launch of the Shenzhou-5 spacecraft. I am fully convinced that it makes a lot of sense for our country to attach importance to space exploration. The space industry has had and is going to have a great impact on China in

scientific, political and military areas. May you have health,
happiness and outstanding success in all your ventures. Respectfully
yours, Frank 100Test 下载频道开通 , 各类考试题目直接下载。
