minutes)Directions: There are 20 blanks in the following passage.For each blank there are four choices marked A), B), C) and D) on the right side of the paper. You should choose the ONE that best fits into the passage. Then mark the corresponding letter on the Answer Sheet with a single line through the center. Bees are very small animals which fly through the air to look for flowers (71)_____.

When a bee (72)_____ some food, it returns to the hive and dances. The dance is the way a bee (73)_____ to other bees that it has found food. Bees do two kinds of (74)_____ to tell other bees of their (75)_____ of food. First, there is a round dance. (76)_____ this dance, the bee moves in a (77)_____ inside the hive. The round dance is used (78)_____ the food is close by. The food must not be more than ten meters (79)_____. If a bee comes back and dance a round dance, other bees know they must go out and look nearby for food. The bees also (80)_____ the bee that has found the food. The smell tells them what kind of flower to (81)_____. After watching the round dance and smelling the bee (82)_____ has found the food, the other bees can find the other source. A second kind of dance (83)_____ by the bee is a tail-wagging dance. In this dance, the bee wiggles the (84)_____ of its body as it moves in a (85)_____ line. The tail-wagging dance is used when the food is far away. The food must be (86)_____ ten meters away. The bees know from the speed of the tail-wagging

dance just how far away the food source is. The line the bee dances on shows the direction that the bees (87)_____ fly into find the food. In the tail-wagging dance, the bees also smell the bee (88)_____ has found the food. The smell tells them what kind of flowers to look for. After watching the tail-wagging dance and smelling the bee that has found the food, the other bees know (89)_____ things. They know how far (90)_____ fly, what direction to fly in, and what kind of flowers to look for.
