The Traffic Accident has been at the morning , May 1. Two children by bike went to school. A car is so fast , the streel. And the car touched two children by bike , and the Traffic Accident has happened. One is touched so far wayand the other is put down. Mary people come here , and they sent to two chidten who go to Hospiton. Wait a time , The ploiemen arriverd in the Accident place. My opiontoin : The car driver is so fast by car , and He didnt attendation to the children by bike aside the road. Two children by bike didnt heard the car come. All of above , I think the car driver must be serier the Traffic Accident. It was last Friday morning. The accident happened when I was on my way to school. It was so terrible that I would never forget it. I was walking along the road , and there are not so many cars on the road. Then , with a big sound , the accident happened. The red car stoped suddenly on the road so that the driver of following car couldnt respond immeditely. The back of the red car was badly damaged ,

but fortunately there was no people injured in this accident. I think the main reasons are as follows : First of all , the red car shouldnt stop suddenly without any signals. Secondly , the following car should keep a certain distance from the front car so that the driver could have enough time to take measurs when any badly situation. Finally , these two drivers were careless. If they had paid more attention to driving , this accdent wouldnt have happened. The traffic accident was taken place at the junction of two highways when I was driving my car home at about 4 oclock..... The yellow car involved in the accident was running at a high speed along the right-hand when it happened. Hardly it reached the junction when it cracked with a truck running from another direction. There was no time for the drivers to change the directions. I think the accident mostly attributed to such reasons : Firstly and the foremost , it was the carelessness of both of the drivers that mostly made the accidents happen. It was not too careful for them when running a car. Secondly , the weather also should be responsible for it. The fog made the vision of drivers vague. Last but not the least , the constructure of the roads was unreasonable. The trafic lights are needed at any junctions. 100Test 下载频道开通 , 各类考试题目 直接下载。 详细请访问 www.100test.com
