It was a rainy day and the road was slippery. On the way , I noticed a boy riding in front of me , talking loudly with his friends. He didnt wear a raincoat ; instead he held an umbrella in one hand , the rode with another hand. As he turned left to Guangming Road , he failed to see a car coming from behind a truck parked on the corner. Suddenly I heard a big noise and saw an umbrella thrown away. The boy was knocked down by the car. I was completely shocked. I think the boys absent-mindedness accounted much for the accident. He was talking all the time and dangerously used an umbrella while riding a bike. The weather also played a role in the tragedy. The third cause was the unproperly parked truck , which was big enough to make the road conditions invisible to the students who were going to make a turn. All these contributed to the accident. It was 8 : 00 this morning , I went on my way to school. When I just at the school gate , I saw the terrible traffic accident happened. A student ride his bike in a high speed , and just when he arrived the school gate , a large truck traveled out of the gate and hit him down. He flied over 3m before his bike hit him on the ground , surely , the poor boy was hurt very bad. I think there are two reasons for the accident. First , it was just the time we began our first class , the bike rider perhaps did not want to be late , he ride his

bike so fast , even didnt low down his speed at the gate. Second , the truck is too large , and at that time , there were too many people walk through the gate , so the bike driver have no other way to chose , but to ride in the middle of the road.
