With the former, you can derive a deep sense of satisfaction from being a member of a well-known organization such as General Motors, or the Bell Telephone System. You have the opportunities of learning from experienced executives and knowing about the standard working process. With the latter, you have greater responsibilities and your decision may bring immediate effect. Normally you are exposed to various experiences and expected to do a great many things without much help or guidance. Personally I prefer to work in a small enterprise, where my prospect of promotion is good as long as I work hard. To tell the truth, I'd rather become a well-known and important figure within my own small pond. 十 Styles of Living 1 . 有些人愿意和父母居住在一起 2 . 有些人想自己独立居住 3 . 我的看法 Some people enjoy living together with their parents after they have grown up. They hold the opinion because, living with parents, they can take better care of their parents and vice versa. Meanwhile, they can turn to their parents for help if they get into trouble or have some difficulties. To them, life in a big family seems to be more enjoyable

than that in a small family. Others, however, prefer to live separately. They cherish the idea to be independent of their parents, seek more freedom and wish to have a place of their own, in which they can do what they like. Besides, they don't want to be overprotected by their parents but long for chance to face the society by themselves. As to me, I like an independent life style in spite of the fact I love my parents. Different generations have different life styles and values. What one generation likes may not be another generation's fondness. Living separately, each generation can enjoy different value. In addition, by leading an independent life, I can train my character and develop my own ability to deal with things encountered in my life. 100Test 下载频道开通, 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
