没有电会带来什么样的后果 directions: for this part,you are required to write a composition about “ what would happen if there were no power ” in three paragraphs.you are given the first sentence or part of the first sentence of each paragraph.your composition should be no less than 150 words. 1.ever since early the last century,electricity has become an essential part of our modern life.

2.if there were no electric power, \_\_\_\_\_. 3.therefore, \_\_\_\_\_. [ 参考范文 ]

what would happen if there were no power ever since early the last century,electricity has become an essential part of our modern life.our industrial and agricultural production depends on it to run various kinds of machines.the modern wonder computers work on electricity too.it provides light,heat and power for us.if we want to watch tv or films or to listen to the radios we also need it.nobody can deny that the development of our civilization depends on electricity. if there were no electric power,our modern world would be in trouble.for one thing all the wheels would stop because the motors that power the machines would fail.for another,many,if not all,of our industries would cease production.all the world transport system,in addition,would be felt on the world ' s communication systems.thus our modern world would be impossible without electricity. 100Test
