On Power Failure
Recently , every morning when I wake up , I find my air-conditioner automatically turned off . I didnt understand why at first , but soon I learned that there was a great shortage of electricity supply in our city my air-conditioner turned off because of a power failure midnight. With the rapidly developing industry and the ever-increasing population , demand for electricity supply is soaring. Besides , summers in recent years are much hotter than before , so most working places and households are air-conditioned , which consumes additional electricity. Face with such a hard nut , we have to find ways to crack it . Above all , in western areas China , there is surplus of electricity supply. So , cities that are thirsty for electricity may ask for remote help. Then , when we have electricity , we should remember to save it . Set your air-conditioners at 27C and you wont feel less comfortable than when they are at 26C . In fact , some factories already shift their working hours to avoid the peak time of electricity consuming. My parents don ' t work from Monday to Friday as before they work form Saturday to Wednesday and have the following two days off

instead. This is also a way out , isnt it ? 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
