are allowed 30 minutes to write a composition on the topic: School or Major. You should write at least 120 words and you should base

your composition on the outline below: 1.选择报考的高校时，有人先考虑大学的名气，有人先考虑专业是否热门。2.如果两者不能兼顾，你先考虑哪个？为什么？

School or Major Recent years have witnessed a steady increase in the popularity of such

majors as international finance, finance and accountancy,

international trade and business administration. In the meantime,

whether to choose good university or a good major has provoked a debate. It is true that graduates from prestigious universities are

popular in talent markets, so, many students would spare no efforts

to be enrolled in good universities. To them, entering a good

university means standing on the threshold of a promising career

after graduation. But, a good university can give you confidence as

well as much competitive pressure and even the best university has

unpopular majors, thus in today's job-hunting society, graduates

from these majors could encounter much difficulty in finding a job,

let alone a good one, which means they are out of job immediately

after graduation. How about a good major? Maybe you are studying

in a common university, but your major is of great competition, then

do you still need to worry about your future? A good major can

ensure your future success based on your industry and mastery of

your major. If your major is exclusive to only several universities, you surely will become a scarce talent. Do not always pursue a good university. choosing a good major suitable to you is wiser. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
