Read the following proposals of Johnson and Edwards, two members of the village Coventry Town Council, who have to decide how to spend the \$ 100, 000 that Mrs. Wh left the village in her will. Then in the space provided, write an argument in favor of the plan you think the Town Council should choose. The following considerations must be taken into account: (1) The will stipulates that the money must be used for the benefit of the children of Coventry. (2) The Town Council wants to spend the money on a project that will benefit the village of Coventry. JOHNSON has proposed that the money be used for a park. Part of the park will be a schoolyard in the center and an athletic field but not any playground. The park also include picnic shelters that can be used by families. The land for the park is now owned by a large real estate firm located in state capital and would be purchased at a cost of \$ 38,000. The playground equipment have to be purchased from a playground equipment supply company in another state at a \$ 12,000. The grading and other site preparation could be done by a construction firm in Coventry at a cost of \$23,000. The remain money would be used to hire local carpenter build the picnic shelters and to hire a local nursery to plant flower and shrubs in the park. Edwards has proposed that the money be used to build a special children ' s wing on the library. At present, there is a children ' s room in the library, but it is small. The number of books that can be housed in the room is limited, and the room is

suitable for special readings. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
