The customer-service division of Mammon Savings and Loan recommends that the best way for the bank to attract new customers and differentiate itself from its competitors is to improve its service to customers specifically, by reducing waiting time in teller lines, opening for business 30 minutes earlier, and closing an hour later. These improvements, it is argued, will give the bank the edge over its competitors and make it appear more customer-friendly. For the most part this recommendation is well-reasoned. a few concerns must be addressed, however. First, the author assumes that Mammons competitors are similar to Mammon in all respects other than the ones listed. In fact, Mammons competitors may be more conveniently located to customers, or offer other services or products on more attractive terms than Mammon. If so, Mammon may not gain the edge it seeks merely by enhancing certain services. Secondly, the author assumes that the proposed improvements will sufficiently distinguish Mammon from its competitors. This is not necessarily the case. Mammons competitors may already offer, or may plan to offer, essentially the same customer-service features as those Mammon proposes for itself. If so, Mammon may not gain the edge it seeks merely by enhancing these services. Thirdly, the author assumes that Mammon can offer these improved services without sacrificing any other current features that attract customers, in fact, Mammon may have to cut back other

services or offer accounts on less attractive terms, all to compensate for the additional costs associated with the proposed improvements. By rendering its other features less attractive to customers, Mammon may not attain the competitive edge it seeks. In conclusion, Mammons plan for attracting new customers and differentiating itself from its competitors is only modestly convincing. While improvements in customer service generally tend to enhance competitiveness, it is questionable whether the specific improvements advocated in the recommendation are broad enough to be effective. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
