The TOEIC does not measure what have you learned in one particular English class but evaluates your general command of the English language - your ability to use English in various situations and contexts. In order to improve your level of English you should combine theory with practice and apply as much of what you learn in an English class as possible. 来源：考试大

Though TOEIC evaluates your command of English in a professional setting you dont need to know any specialized vocabulary such as technical terms or other specific language.

TOEIC focuses on day to day situations that occur when you use English in business. How do I prepare for the test? 来源：考试大
