Flight We were late as usual. My husband had insisted on watering
the flowers in the garden by himself, and when he discovered that he
couldnt manage, he asked me for help at the last moment. So now we
had an hour to get to the airport. Luckily, there were not many cars
or buses on the road and we were able to get there just in time. We
checked in and went straight to a big hall to wait for flight to be
called. We waited and waited, but no announcement was made. We
asked for information and the girl there told us that the plane hadnt
even arrived yet. In the end, there was another announcement telling
us that passengers waiting for Flight LJ108 could get a free meal
voucher (凭单) and that the plane hadnt left Spain for technical
problems. We thought that meant that it wasnt safe for the plane to
fly. We waited again for a long time until late evening when we were
asked to report again. This time we were given vouchers to spend the
night in a nearby hotel. The next morning after a bad night because of
all the planes taking off and landing, we were reported back to the
airport. Guess what had happened while we were asleep! Our plane
had arrived and taken off again. All the other passengers had been

第二篇 Hair Care

Whether the hair is long or short, it must be regularly brushed (梳) and regularly washed. For greasy (油性的) hair, especially if the owner lives in a town, it may be necessary to wash the head every four to five days. Those with a dry hair can usually go a little longer, but this is a matter for the individual to decide. If a woman is not able to go to hairdresser very often, it is important that she chooses a style she can easily manage for herself, and this nearly always means that the first cut must be very standard. The same applies to permanent (永久的) waving. I delay, this should be carried out three or four times a year, so that the hair never gets out of hand. One thing would be remembered though, that is, whatever you apply to the head can have some effect upon the skin and therefore anything strong should be used with care. Or you may use milder products. As for style, this must be studied according to what is the latest fashion and also to suit the individual at different

times of her life. Young people who has spots or skin troubles on their face, should take particular care to ensure that the hair is both clean and does not come into contact with the affected piece of skin. Hair is very difficult to keep completely clean and therefore anyone running their hands through their hair and afterwards touching their face, or letting their hair fall over their faces, might spread infection from one place to another. Good hair does a lot to the effect of a face, so if you want to look charming, please start with your hair.6. According to the text, the most basic thing to do in hair care isA to go to hairdressers very often B to choose milder products for the hair.C to wash and brush the hair regularly. D to keep the hair away from the skin trouble
