Percent at Guaranty Bank Guaranty Bank (Austin, TX) reported \$66.8 million in insurance commissions and fees in 2005, up 42 percent from \$47 million in 2004, according to the upcoming issue Singers Annuity & Funds Report. This will likely place Guaranty among the top 20 banks in insurance when the publication assembles its rankings later this year. Guaranty Bank is the \$16 billion (assets) thrift subsidiary of Temple-Inland, Inc., the Texas corrugated packaging and forest products firm. It operates some 140 banking centers in Texas and California. In February 2005, Guaranty Insurance Services Inc. (GIS), the banks insurance unit and the second-largest insurance agency in Texas acquired Walter Mortensen Insurance of Bakersfield, California. The acquisition of \$13.5 million (annual revenues) Walter Mortensen doubled the size of GISs presence in California and clearly had an impact on overall 2005 numbers. Most insurance revenues came from commercial insurance activities. Had Guaranty Bank had \$66.8 million in insurance brokerage revenues in 2004 (instead of 2005), it would have ranked 12th in Whos Who in Bank Insurance (2005 Edition), just behind New Jerseys Commerce Bancorp (\$71.97 million). 100Test 下载频道开通，各类考试题目直接下载。详细请访问
