**SECTION D NOTE-TAKING**  
**amp. ERROR CORRECTION ( 15 MIN. )** The following passage contains ten errors .Each line contains a maximum of one error. In each case only one word is involved. You should proofread the passage and correct it in the following way : For a wrong word : underline the wrong word and write the correct one in the blank provided at the end of the line. For a missing word : mark the position of the missing word with a “ ^ ” sign and write the word

you believe to be missing in the blank provided at the end of the line. For an unnecessary word : cross the unnecessary word with a slash “ / ” and put the word in the blank provided at the end of the line.

One important outcome of the work on the expression of genes in developing embryos is sure to be knowledge that can help preventing birth defects. Just as promising ( 26 ) \_\_\_\_\_ is the possibility of unraveling the complicated wiring ( 27 ) \_\_\_\_\_ of the brain. A mechanic gets valuable insight how an ( 28 ) \_\_\_\_\_ automobile works by rebuilding car engines ; similarly , neuroscientists can learn how the brain functions from ( 29 ) \_\_\_\_\_ the way it is put together. The next step pursuing the ( 30 ) \_\_\_\_\_ goal is to find out how the blueprint genes , the home box genes , control the expression of other genes that create the valves and piston of the working cerebral engine. The protein encoded by the latter genes could change the ( 31 ) \_\_\_\_\_ stickiness of the cell surface , the shape of the cell or its metabolism to create the characteristic peculiar to , say , neurons or neural-crest cell. Surface proteins may be the ( 32 ) \_\_\_\_\_ mechanism , whereby similar programmed cells stick together to form specific structures ; they might also sense ( 33 ) \_\_\_\_\_ the local environment to help the cell decide what is to do. Clarifying those mechanisms will engage the best talents in ( 34 ) \_\_\_\_\_ embryology and molecular biology for some times to come. ( 35 ) \_\_\_\_\_ What is perhaps the most intriguing question of all is if the brain is powerful enough to solve the puzzle of its own creation.

PART III READING COMPREHENSION ( 40 MIN. )  
SECTION A : READING COMPREHENSION ( 30 MIN. ) In

this section there are four reading passages followed by fifteen multiple-choice questions. Read the passages and then mark your answers on your Answer Sheet.

TEXT A Such joy. It was the spring of 1985 , and President Reagan had just given Mother Teresa the Medal of Freedom in a Rose Garden ceremony. As she left , she walked down the corridor between the Oval Office and the West Wing drive , and there she was , turning my way. What a sight : a saint in a sari coming down the White House hall. As she came nearer , I could not help it : I bowed. “ Mother ” , I said , “ I just want to touch your hand. ” She looked up at me it may have been one of Gods subtle jokes that his exalted child spent her life looking up to everyone else and said only two words. Later I would realize that they were the message of her mission. “ Luff Gott , ” she said. Love God. She pressed into my hand a poem she had written , as she glided away in a swoosh of habit. I took the poem from its frame the day she died. It is free verse , 79 lines , and is called “ Mothers Meditation ( in the Hospital ) 。 ” In it she reflects on Christs question to his apostles : “ Who do you say I am ? ” She notes that he was the boy born in Bethlehem , “ put in the manger full of straw..... kept warm by the breath of the donkey , ” who grew up to be “ an ordinary man without much learning. ” Donkeys are not noble ; straw is common ; and it was among the ordinary and ignoble , the poor and sick , that she chose to labor. Her mission was for them and among them , and you have to be a pretty tough character to organize a little universe that exists to help people other people arent interested in helping. Thats how she

struck me when I met her as I watched her life. She was tough. There was the worn and weathered face , the abrupt and definite speech. We think saints are great organizers , great operators , great combatants in the world. Once I saw her in a breathtaking act of courage. She was speaker at the National Prayer Breakfast in Washington in 1995. All the Washington Establishment was there , plus a few thousand born-again Christians , orthodox Catholics and Jews , and searchers looking for a faith. Mother Teresa was introduced , and she spoke of God , of love , of families. She said we must love one another and care for one another. There were great purrs of agreement. But as the speech continued it became more pointed. She asked , “ Do you do enough to make sure your parents , in the old peoples homes , feel your love ? Do you bring then each day your joy and caring ? ” The baby boomers in the audience began to shift in their seats. And she continued. “ I feel that the greatest destroyer of peace today is abortion , ” she said , and then she told them why , in uncompromising term. For about 1.3 seconds there was complete silence , then applause built and swept across the room. But not everyone : the President and the First Lady , the Vice President and Mrs. Gore , looked like seated statues at Madame Tussauds , glistening in the lights and moving not a muscle. She didnt stop there either , but went on to explain why artificial birth control is bad and why Protestants who separate faith from works are making a mistake. When she was finished , there was almost no one she hadnt offended. A US Senator turned to his wife and said , “ Is my jaw up yet ? ” Talk about speaking

truth to power ! But Mother Teresa didnt care , and she wasnt afraid. The poem she gave me included her personal answers to Christs question. She said he is “ the Truth to be told..... the Way to be walked..... the Light to be lit. ” She took her own advice and lived a whole life that showed it. 36. Who was the exalted child ? A. Mother Teresa. B. the author. C. I. D. God. 37. Who raised the question “ who do you say I am ? ” A. the apostle. B. Christ. C. Mother Teresa. D. she. 38. Which of the following is not a quality of Mother Teresa ? A. tough. B. definite. C. ethereal. D. like a steam-roller. 39. Why did the President and the First Lady , the Vice President and Mrs. Gore look like seated statues at the Madame Tussauds ? A. Because they didnt love Madame Tussaud. B. Because they didnt like to move. C. Because they were VIP. D. Because they didnt quite agree with Mother Teresa over the issue of abortion. 40. According to Mother Teresa , abortion is \_\_\_\_ A. one of Protestant works. B. one of Protestant faith. C. one of the Truths. D. not one of Protestant works
