To put it simply that 's because of air pollution. Scientists tell us that because of air pollution , the earth 's heat cannot escape. This is known as global warming. If this situation is allowed to continue , it will just keep getting hotter an hotter. Then , can you imagine what will happen ? We should all , therefore , do our part to stop polluting the air and help save the world. 全球气温上升 你有没有注意到天气一年比一年变得还要暖和了呢？简言之，那是因为空气污染的缘故。科学家告诉我们由于空气污染，地球的热气无法散出去。这就是为人所知的全球变暖。如果我们任由这种情形一直持续下去，地球就会变得越来越热。那么，你能想像会发生什么事吗？因此，我们全都应该尽一己之力来防止污染空气并拯救地球。 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
