A recent study shows that not only is breakfast the most important meal of the day , but it is also important to eat it at the right time. The timing of breakfast may affect one ' s performance in school or at work. For instance , if children eat breakfast 30 minutes before school , they will probably do better than those who eat it two hours earlier. What you eat is also an important factor. If you eat sweet foods , they will probably improve your ability to think and remember. In brief , the study claims that they improve mental sharpness. If I were you , I would give it a try. After all , what ' s there to lose ? 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
