While on an expedition in western China twenty years ago , some explorers discovered the mummies of a tall , red-haired people. Though estimated to be nearly 4 , 000 years old , the corpses were quite well preserved. Scientists are excited because these mummies are a link between the East and the West. What were redheads doing in China and who were they ? Though the answers to these questions may never be answered with certainty , these mummies provide new information about the Bronze Age , when men used tools and weapons made of bronze. This was the period between the Stone Age and the Iron Age. As the explorers continue their work , new mysteries are waiting to be discovered. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
