Everywhere in the world you can hear people swearing or using foul language. Even when learning a second language , many people know how to swear before they can speak the language properly. Indeed , it is a disease. Recently , in New Jersey , the government decided to do something about the problem. It banned swearing. You could face a US\$500 fine , including a three-month jail term for swearing. Considering the trivial nature of the crime , the punishment seemed quite harsh to some. Some say the law infringes on their rights. But others say it is a good law because people in New Jersey have really stopped swearing so much. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
