Wearing glasses can be a real day-to-day hassle , not to mention using contact lenses which have to be cleaned , rinsed and disinfected every so often. Fortunately , however , for those millions of contact lens users , there ' s a new product out the 1day Acuvue. These new disposable contact lenses are designed to be convenient and rather inexpensive because the idea is to throw them away after use at the end of each day. What ' s even better is if you are planning to give them a try for the first time , the manufacturers will give you your first five pairs for free. If you don ' t think that ' s possible , why not go down to your local optician and check it out ? No one will blame you for doing that. After all , seeing is believing. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
