Grouchy people are always complaining for no reason. Do you have a husband or boyfriend like that ? Is he driving you crazy with his complaints ? Don ' t worry. Cheer up. There ' s still some hope. A recent medical report says that doctors have found a cure. They say that some men are grouchy because they have a physical problem. In other words , they are sick. They need medical help. So the next time your better half is grouchy , don ' t just sit there. Take him to the doctor ' s. There ' s one strange thing about the report , though. It doesn ' t say anything about grouchy girlfriends or wives.
