Thai people believe that keeping monkeys happy brings good luck. So every year theres a day on which they have a special treat for monkeys called the Annual Monkey Feast. Hundreds of monkeys come from the mountains to "sit at" long buffet tables which are piled high with bananas , peanuts , watermelons and cabbage. Monkeys will be monkeys. So they fool around and fights break out. But nobody seems to care. Neither do the monkeys. They just stare back at the crowds of people who turn out to watch them. Then they continue to monkey around and have a good time. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
