But you can ' t find your hotel. You sigh a deep sigh. It seems like you are dreaming a terrible dream. What is happening ? This situation often happens to people who travel by car. But it may become a thing of the past. New auto computers are being designed to tell you how to reach your destination. A small screen in your car displays a map of the city and shows you where you are. Just give the computer the name of your hotel. You ' ll see it on the map. To top it off , a voice will give you directions while you drive. With a car like this , what else would you expect. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
