

VB编程的几个API函数的应用问题 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/137/2021_2022_VB_E7_BC_96_E7_A8_8B_E7_9A_c97_137421.htm q:--怎样在我的程序中实现文件下载 re: 一个例子：一个command，两个text代码如下

```
： private declare function dofiledownload lib "shdocvw.dll" (byval  
lpszfile as string) as long private sub command1_click() dim  
sdownload as string sdownload = strconv(text1.text, vbunicode) call  
dofiledownload(sdownload) end sub private sub form_load()  
text1.text = "http://www.chat.ru/~softdaily/fo-ag162.zip"  
form1.caption = "audiograbber 1.62 full" text2.text =  
"http://www6.50megs.com/audiograbber/demos/cr-ag161.zip" end  
sub q:--如何在vb中定义一个热键，使得当一个应用程序的窗  
口最小化后，可以通过热键来唤醒它 re: 先声明api函  
数sendmessage，然后添加一个按钮和如下代码； private  
declare function sendmessage lib "user32" alias "sendmessagea" (byva  
l hwnd as long, byval_ wmsg as long, byval wparam as long, lparam  
as any) as long private sub command1_click() dim wkey as long  
wkey = 66 x = sendmessage(me.hwnd, wm_sethotkey, wkey, 0)  
msgbox "b 键将激活窗体！", 64, "定义快捷键" end sub 100Test
