You want that all the Microsoft WKS send their print job on a NT Server. How you configure this. Choose 2: a - Install LPR on all WKS b - Install LPD on the Server c - Install LPD on all WKS d - Create a share with LPR on the Server e - Make a mapping with the printer port between the Unix computer and the NT Server. I chosed b and d but I think that it should be b and e 2) You want to capture TCP/IP packets and to save them for viewing the statistique later. What do you use. a - Performance Monitor b - Network Monitor I asked a because I didnt remember that we can save with Network monitor. 100Test 下载频道开通 , 各类考试题目直接下载。 详细请访问 [www.100test.com](http://www.100test.com)
