I have thrown this party , because I wanted to thank you all for being kind to me while I have been here. Looking back , it seems like a very short five years living here and working together with you. My wife and I still remember the first day we arrived in Los Angeles , and every thing looked so huge , compared with things in Taipei. The first several months were a difficult time , but we tried very hard to adapt ourselves to the new environment , new life style , and a new place of work. There were times of disappointment , anger , and humiliation , and there were also times of joy , excitement , and happiness , Through them all , you have always been with us to share the sorrow and happiness , and we are deeply grateful to you for that.来源：考试大 Millions of thanks to you all , and dont forget to finish your dinner before it gets cold.
