Examples 0 THAT 00 CORRECT THE COST OF NOT TRAINING 0 Training is not a cost . It ' s an investment . It really doesn ' t matter that what we pay 00 for an investment . What is relevant is what we get in return . One of the easiest 34 ways is to put an organization ' s future at risk would be to view training primarily as 35 a cost , and therefore provide with substandard training that operates only as a 36 temporary solution . Many companies attempt to quantify as the results of training. For 37 example , a person paid \$50,000 a year who wastes just one hour a day costs the 38 organization between \$6,250 per year .
