BEC英语阅读中怎样回答细节性问题 在BEC考试阅读中，我们经常会遇到一些细节性问题。那么什么是细节性问题呢？细节性问题是关于Supporting Details类的问题，通过Skimming找出主题后，应进一步掌握阐述和发展主题的主要事实，或按要求找出特定细节。在回答此类问题时，应采用查读法（Scanning），因为这些具体内容（Details是用来说明、论证或分析文章中心的。这类题目常以"WH-"形式来提问，如who， what， when， where， why及how等形式。这些问题的表达常不采用文章中的原话提问，而是使用同义词语等，因此，在选择答案前应首先看准题目，看清问题所问究竟；然后，在查读时注意寻找与题目相关的关键词语；最后，在充分理解原文、原题的基础上确定正确答案。当然，这类细节性问题所涉及的面是很广的。有的涉及数字计算，如问时间、距离、次数、数量等，认真计算后方可选定正确答案；有的涉及正误判断，要先看选项，根据选项提供的线索，寻视文中相应部分，最后在题中选出肯定答案；还有的寻问事实、原因、结果、目的等。总之，做细节题切忌通过自己对某类知识的主观了解和认识做出想像判断，一定要紧扣文章内容，不可随心所欲。 细节类问题的命题方式有以下几种：(1) Which of the following is NOT true according to the information in the passage? (2) Which of the following is mentioned in the passage? (3) What is the example of . . . as described in the passage? (4) The author

mentions all of the following except . . . (5) The reason for . . . is . . .
(6) The author states that . . . (7) According to the passage, when
(where, why, how, who, etc.) ... Example : Just seven years ago, the
Jarvik-7 artificial heart was being cheered as the model of human
creativity. The sight of Barney Clark-alive and conscious after
trading his diseased heart for metal-and-plastic pump -convinced
the press, the public and many doctors that the future had arrived. It
hadn't. After monitoring production of the Jarvik-7 , and
reviewing its effects on the 150 or so patients (most of whom got the
device as a temporary measure) the U. S. Food and Drug
Administration concluded that the machine was doing more to
endanger lives than to save them. Last week the agency cancelled its
earlier approval , effectively banning (禁止) the device . The recall
may hurt Symbion Inc. , maker of the Jarvik-7 , but it won't end
the quest for an artificial heart. One problem with the banned
model is that the tubes connecting it to an external power source
created a passage infection. Inventors are now working on new
devices that would be fully placed, along with a tiny power pack, in
the patient's chest. The first sample products aren't expected for
another 10 or 20 years. But some people are already worrying that
they'll work- and that America's overextended healthcare
programs will lose a precious \$ 2.5 billion to \$ 5 billion a year
providing them for a relatively few dying patients. If such
expenditures(开支)cut into funding for more basic care , the net
effect could actually be a decline in the nation's health. According
to the passage the Jarvik-7 artificial heart proved to be _____. A)

a technical failure B) a technical wonder C) a good life-saver D) an effective means to treat heart disease 本题是考核学生根据上下文全面理解和进行正确判断的能力，问的是本文论述的Jarvik-7人造心脏性能和效果到底如何。文章一开头说Jarvik-7是一大技术成就，但文章说到：...the .U.S. Food and Drug Administration concluded that the machine was doing more to endanger lives than to save them (Line -7-9).后面又提到：Last week the agency canceled its earlier approval , effectively banning the device.这两句话提供了这个问题的答案。因此，答案：The new models of artificial hearts are expected_____.

A) to have a working life of 10 or 20 years B) to be set fully in the patient ' s chest C) to be equipped with an external power source D) to create a new passage for infection 本题是考核正确理解事实细节的能力。选项已的意思与文章中第二段第三句，即"Inventors are now working...in the patient ' s chest ."的意思符合，因此选项B)是答案。 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
