Some students may have wrong ideas of what a good student is. They think a good student is one who studies all the subjects well and listens to the teachers all the time, but, actually these ones don't care about anything apart from study. Then what is a good student? Firstly, he has clear world values. He knows what he should do and what he shouldn't do. He pays respect to teachers and old people and helps others as much as he can. It doesn't matter how he does in the exam, although this is very important. Secondly, to learn as much as possible is our responsibility as students. So a good student always tries to learn from both text-books and other books. Besides reading, he also likes sports and enjoys doing manual work. He develops in all-round way. Thirdly, he has a strong character and will-power. Because we have troubles every day. How to face the difficulties in study and our lives is very important. A good student won't be afraid of difficulties. He'll always try his best though he knows he may fail. He will never give up. This is the good student in my eyes. You may have different ideas. But be a good student anyway. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
