Weekends来源：www.examda.com Weekends to people mean that they can have a two-day good rest. For example , people can go out to enjoy themselves or get together with relatives and friends to talk with each other or watch interesting video tapes with the whole family. Everyone spends weekends in his own way. Within two days , some people can relax themselves by listening to music , reading novels , or watching films. Others perhaps are more active by playing basketball , wimming or dancing. Different people have different relaxations. I often spend weekends with my family or my friends. Sometimes my parents take me on a visit to their old friends. Sometimes I go to the library to study or borrow some books to gain much knowledge. I also go to see various exhibition to broaden my vision. An excursion to seashore or mountain resorts is my favorite way of spending weekends. Weekends are always enjoyable for me.
