Comprehension Directions: In this part there are 4 passages followed by questions or unfinished statements, each with four suggested answers. Choose the one you think is the best answer. Mark your choice on the Answer Sheet by drawing with a pencil a short bar across the corresponding letter in the brackets. Questions 11-15 are based on the following passage: Ever since humans have lived on the earth, they have made use of various forms of communication. Generally, this expression of thoughts and feelings has been in the form of oral speech. When there is a language barrier, communication is completed through sign language in which motions stand for letters, words, and ideas. Tourists and the people unable to hear or speak have had to turn to this form of expression. Many of these symbols of whole words are very lively and exact and can be used internationally. Spelling, however, cannot. Body language sends ideas or thoughts by certain actions, either meaningfully or not. A wink can be a way of showing that the party is only joking. A nod means agreement, while shaking the head indicates disagreement. Other forms of nonlinguistic language can be found in Braille (a system of raised dots read with the fingertips), signal flags, Morse code, and smoke signals. Road maps and picture signs also guide and warn people. While language is the most common form of communication, other systems and techniques also express human

thoughts and feelings. (183 words)

11. Which of the following statements best summarizes this passage?
A. When language is a barrier, people will find other forms of communication.
B. Everybody uses only one form of communication.
C. Nonlinguistic language is invaluable to foreigners.
D. Although other forms, except for language, of communication exist, they are of little value.

12. Which of the following statements is NOT true?
A. There are many forms of communication in use today.
