The people lacked some of the basis of European civilization, it is true, for instance, horses were unknown to them, and they had never discovered the use of wheel. But there were many accomplishments to offset such handicaps. In the political domain these original American, as early as the tenth century, were building mighty empires. and in realm of intellectual achievements, they developed a cosmographic(宇宙学的) science dealing with the constitution of the whole order of nature that was far superior to that of Europe. It would be a mistake, however, to believe that the New World, as a whole, was an oasis of civilization in the European sense of the term. America had many faces, and to its conquerors it offered a variety of aspects. Christopher Columbus, when he went ashore on the island of San Salvador---one of the Bahamas---was greeted by the Lucayas, an agricultural and artistic people who typified the "noble savage" of popular legend. The Spaniards, on the other hand, were shortly to meet a completely different sort of native, the human-eating Caribbean. Such diversity is reflected in the history of the pre-Columbian New World, a history so complex that it had taken historians almost five centuries of study in order to find out its main lines. 1. According to the first paragraph, the people living in the

American before the arrival of Columbus, were rather \_\_\_\_\_. [A] savage and primitive [B] inferior in intelligence [C] advanced in technology 来源 : [www.examda.com](http://www.examda.com) [D] sophisticated politically

2. We can infer from the passage that before Columbus arrived in the new World \_\_\_\_\_. [A] there were no wagons pulled by horses [B] animals were not used to carry loads [C] political systems were very elementary [D] theories on the nature of the universe were unknown

3. According to the passage, the American of the tenth century \_\_\_\_\_. [A] has made no progress in art and agriculture [B] had developed the science of biology [C] were typically like the legendary "noble savage" [D] were highly civilized

4. When the author says the "America had many faces", he probably means that the people \_\_\_\_\_. [A] had a variety of facial characteristics [B] came from many different racial backgrounds 来源 : [www.examda.com](http://www.examda.com) [C] were sometimes barbaric but wished to be civilized [D] were at various levels of cultural development

5. We can infer from the passage that pre-Columbian history \_\_\_\_\_. [A] is centered on the past five centuries [B] has been a challenge to scholars [C] reflects a single line of development [D] has been studied in depth only recently
