If we are to solve the nursing shortage, hospital administration and doctors everywhere would do well to follow Beth Israel ' s example. At Beth Israel each patient is assigned to a primary nurse who visits at length with the patient and constructs a full-scale health account that covers everything from his medical history to his emotional state. Then she writes a care plan centered on the patient ' s illness but which also includes everything else that is necessary. 来源 : [www.examda.com](http://www.examda.com)

The primary nurse stays with the patient through his hospitalization, keeping track with his progress and seeking further advice from his doctor. If a patient at Beth Israel is not responding to treatment, it is not uncommon for his nurse to propose another approach to his doctor. What the doctor at Beth Israel has in the primary nurse is a true colleague. Nursing at Beth Israel aim involves a decentralized nursing administration. every floor, every unit is a self-contained organization. There are nurse-managers instead of head nurses. in addition to their medical duties they do all their own hiring and dismissing, employee advising, and they make salary recommendations. Each unit ' s nurses decide among themselves who will work what shifts and when. Beth Israel ' s nurse-in-chief ranks as an equal with other vice presidents of the hospital. She aim is a member of the Medical Executive Committee, which in most

hospitals includes only doctors. 1. Which of the following best characterizes the main feature of the nursing system at Beth Israel Hospital \_\_\_\_\_.
