Comprehension (30%) Directions: There are three passages in this part. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A, B, C and D. You should decide on the best choice and mark the corresponding letter on the Answer Sheet with a single line through the center. Passage 1 Questions 1 to 5 are based on the following passage: When we talk about intelligence, we do not mean the ability to get good scores on certain kinds of tests or even the ability to do well in school. By intelligence we mean a way of living and behaving, especially in a new or upsetting situation. If we want to test intelligence, we need to find out how a person acts instead of how much he knows what to do. (76) For instance, when in a new situation, an intelligent person thinks about the situation, not about himself or what might happen to him. He tries to find out all he can, and then he acts immediately and tries to do something about it. He probably isnt sure how it will all work out, but at least he tries. And, if he cant make things work out right, he doesnt feel ashamed that he failed. he just tries to learn from his mistakes. An intelligent person, even if he is very young, has a special outlook on life, a special feeling about life, and knows how he fits into it. If you look at children, youll see great difference between what we call "bright" children and "not-bright" children. They are actually two different kinds of

people, not just the same kind with different amount of intelligence. For example, the bright child really wants to find out about life - he tries to get in touch with everything around him. (77) But, the unintelligent child keeps more to himself and his own dream-world. he seems to have a wall between him and life in general. 1. According to this passage, intelligence is \_\_\_\_\_. A. the ability to study well B. the ability to do well in school C. the ability to deal with life D. the ability to get high scores on some tests 2. In a new situation, an intelligent person \_\_\_\_\_.
